Chapter 1

Toph

1.1 String

1.1.1 Monu Mia

```
import java.util.Scanner;

public class MonuMia
{
    public static void main(String[] args)
    {
        Scanner input = new Scanner(System.in);
        StringBuffer sb = new StringBuffer(input.nextLine());
        System.out.println(sb.reverse());
    }
}
```

1.1.2 Formatted Number

```
import java.util.Scanner;

public class Formatted Number
{
    public static void main(String[] args)
    {
        Scanner input = new Scanner(System.in);
        StringBuffer sb = new StringBuffer(input.nextLine());
        sb = sb.reverse();
        for (int i = 3; i <= sb.length(); i += 3)
        {
            sb.insert(i, ',');
        }
    }
}
```

```
        i++;  
    }  
    if (sb.charAt(0) == ',')  
        sb.deleteCharAt(0);  
    if (sb.charAt(sb.length() - 1) == ',')  
        sb.deleteCharAt(sb.length() - 1);  
  
    System.out.println(sb.reverse());  
}  
}
```
